Abatement Record

Instructions

You have been cited for at least one Iowa OSHA violation. Unless you file a notice of contest or a petition for modification of abatement, the law requires the following:

1. Abate the cited conditions by the deadline on the Citation and Notification of Penalty (citation);
2. Send Iowa OSHA certification that the conditions have been abated;
3. Post this form for at least three working days near the site of each violation; and
4. Provide proof of abatement by sending photos, invoices, training records or similar documents

This form is to help you meet these requirements. Complete the form and return it to the address provided above. If the citation has more than one abatement deadline, you may need to complete this form more than once. To get an additional copy of this form visit www.IowaOSHA.gov. For more information about a notice of contest or petition for modification of abatement, please refer to the *Guide to Iowa OSHA Citations* booklet.

Citation	Item	Instance (if any)	Method of Abatement	Date Abated	Documentation

(You may continue the above table on another page and submit it with this form if needed)

Abatement Certification

I certify all items above have been abated. I certify I will post a copy of this document near the place where each violation occurred and I will leave it posted for at least 3 working days. I certify the information on this form is accurate.
